Ann Holmes Studios ~ Quilt Lectures and Workshops

French Fuse Appliqué - "No Sewing Until You Quilt It!"

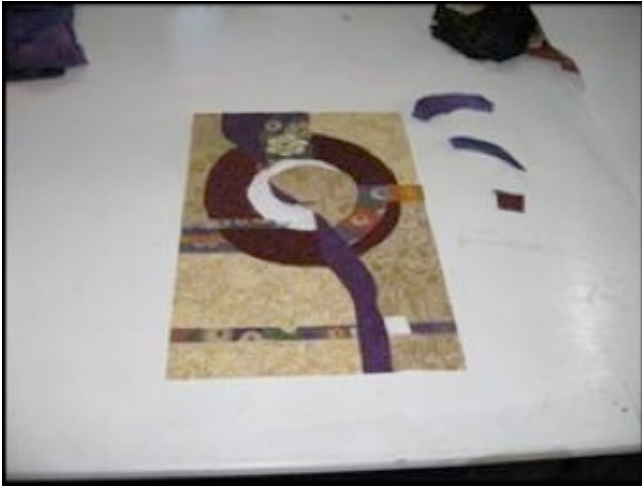

Ann uses French Fuse as a foundation and "builds" her quilt tops using a turned-under Appliqué technique. There is no sewing until after she makes her "quilt sandwich". Then, Ann will quilt and stitch at the same time. Ann is available to come to your guild or group and demonstrate her technique. Please contact her for more information.

Pictures detailing the French Fuse Appliqué technique are given below.

Building the quilt top.

Pulled off pieces that I didn't like. Since the technique is "no sew", there are **no seams** to rip out.

Finished quilt top. Now it is ready for the stitching and quilting at the same time.
